It will bring sweet after taste in our life like a dessert.*

We believe that can contribute power on your career.

MARCO
Italy Designer

MESSAGE FROM DESIGNER

Hello, friend!! CIAO, it's a pleasure for meet you here.

I'm Marco, a designer from Italy. In the early stage of designing this single head machine for GREENOVIA CRAFTS, I did a lot of market research on product application in Europe. For a equipment that service personalized need, it needs to be super personalized. The strength of the product structure is the foundation. On a strong foundation, ever line outlined, every color selected, every details processed, must be in line with our application scenarios and usage. Thus, the product can be integrated with the scene, which is not only a landscape, but also a work of art, but also a piece of industrial equipment with excellent performance.

GREENOVIA CRAFTS SWEET SINGLE HEAD EMBROIDERY MACHINE

This product can be used for ready cloths, hat, bag and jeans with 12 needles, 15 needles and 20 needles multi-color of head structure available. Super Embroidery area (600 x 400 mm). Max. Speed 1200rpm. (Servo Motors) with Camera function, No need design. Sequin, bead, Cording, Thermal Cutting etc. device can be added. (any of two devices)
Live embroidery unit make you feel convenient and intelligent by technology, as well as bring you a brand new interesting embroidery experience.

PRODUCT APPLICATION LOCATION

SHOPPING MALL

When customers choose their favourite products (such as T-shirts, hats, etc.), why not embroider a favourite pattern, so that IT becomes a special meaning and beloved. Make colourful for life; leave good moments for the memories.

DESIGNER STUDIO

When the abstract design encountered direct embroidery object, so that we continue to design inspiration forward, increase the success rate of design, speed up the design efficiency. SWEET modelling with fashion sense gives designers more inspiration and gives the studio an artistic landscape.
